OUR MISSION IS SIMPLE

When we made our first batch of ginger beer in 2017 we had one goal, to make a delicious soda using real ingredients.

As we have grown over the years that has remained the focus of everything we create.

All of our products use all natural ingredients, and we never use any artificial flavors, colors, sweeteners, or preservatives.

OUR BRANDS

Big Jerk Soda is our flagship brand. Each of the products in this line is hand crafted with real fruit juice, cane sugar, and filtered water.

Big Jerk Seltzer was born out of desire to have delicious options with no calories or sugar. Each seltzer we create uses high-quality, all natural flavor extracts and filtered water.

Pop Singles was created to satisfy the demand for more traditional soda options like root beers and colas. Pop Singles are also made with all natural extracts as well as cane sugar and filtered water.

**WE GO BEYOND
SODA...**

M I L K W E E D
S P I R I T S

Milkweed Spirits was started with one goal in mind, to craft exceptional Spirits and cocktails.

Through Milkweed we've been able to partner with companies to bring their private label spirits and signature cocktails to life.

**ELEVATING
EVERY SIP**

Milkweed Spirits is the first distilled spirits plant in Pensacola since prohibition.

We are primarily rectifiers who take bulk spirits and turn them into high end libations.

We specialize in blending spirits to make hard seltzer, hard sodas, premium vodka and other spirits, ready to drink cocktails and so much more.

WHAT ELSE COULD WE PARTNER ON?

We thought of a few things...

Private label premium spirits for signature cocktails at bars located throughout the property

Package sales at your gift shops, restaurants or through local vendors (if you have the ability to do so)

Signature alcoholic drinks or mixers at any of your restaurants.

Special event offerings for weddings, reunions, festivals and private parties

White labeling services to fully customize any label

Cobranded event sponsorship items

The possibilities are endless.

LET'S CREATE
SOMETHING
EXCEPTIONAL
TOGETHER!
